Today communities and local governments have become frontline defenders of community safety and the rights of all residents. We join others during United Against Hate Week to support knowledge and networking that addresses threats to human rights in our region. Hear from local leaders about current challenges affecting our most vulnerable neighbors. Explore how we can work together to stand up to hate and unlawful repression as we build the city we need.

SPEAKERS INCLUDE CITY GOVERNMENT REPRESENTATIVES FROM:

- Commission on Human Relations
- Office of Immigrant and Refugee Affairs
- Gender Equity Commission
